

OBTAINING IRB APPROVAL

Julie Dangremond Stanton

Assistant Professor of Cellular Biology

stantonj@uga.edu

Outline

- **Getting ready for human subjects research**
- **How I approach the IRB approval process**
- **Obtaining consent for research**

GETTING READY

For your consideration

- **What are you planning to study?**
- **What types of data do you plan to collect?**
- **What data collection files do you think you will need to submit?**

**Discuss your answers
with a partner.**

**Write down any questions
you have.**

Instructions

- **Please discuss your answers with a partner**
- **Come up with any questions you would like to ask**

HOW I APPROACH THE PROCESS

How I approach the process

- Draft the “Research Design” section in Word
- Start working on data collection instruments
 - Surveys
 - Interview protocols

Appendix 1 Exam One Self-Evaluation	Name: _____ ID Number: _____
Self-Evaluation of Your CBIO3400 Exam One Performance <i>Please answer the following questions honestly and in as much detail as possible.</i>	
1) Have you seen your grade on exam one? <i>Please circle one:</i> YES, on my exam YES, through eLC NO, not yet	
2) How did you study for exam one? (Describe all of your approaches, techniques, and strategies.)	
3A) Which study strategies (from your list above) worked well for you?	
Why did these study strategies work well for you?	
3B) Which study strategies (from your list above) did <u>not</u> work well for you?	
Why didn't these study strategies work well for you?	
PLEASE TURN OVER ✍	

How I approach the process

- Start working on consent documents
 - Written consent form
 - Recruitment script
- Fill out IRB application
 - GearR

The screenshot shows the homepage of the GearR eResearch Portal for IRB at the University of Georgia. The header includes the University of Georgia logo and name, a search bar, and the GearR logo with the tagline "Georgia electronic administration of Research". The main banner features a blue background with a brain and a gear, with the text "Applications & Databases" and "eResearch Portal for IRB". Below the banner is a navigation menu with links for Home, Applications & Databases, Training, and GearR Blog. The main content area includes a description of the portal as an electronic Human Subjects Proposal Submission and Review web application, a "PORTAL LOGIN" button, and a section titled "IRB portal:" with a list of features: "Improves efficiency through a streamlined IRB submission and review process", "Provides electronic support for the full life cycle of the research study, which includes initial submissions, modifications, reportable new information, and continuing reviews.", "Automated reminders will notify researchers, reviewers and administrators of important milestones and when actions are needed in the review process.", and "UGA-specific guidance via integrated 'help' menus will guide researchers through the process."

OBTAINING CONSENT

Written consent forms

- **Use IRB template**
- **Make sure you provide a copy for subjects to keep**
- **A few comments on recruitment***
